## REFUSE SOFT COAL MINERS' DEMANDS

Operators Reject Propositions for 10 Per Cent. Increase of Wages and Shorter Working Hours

TO MAKE FINAL EFFORT TO AVERT A STRIKE

The Whole Matter Now Referred to a Sub-Committee of Eight Operators and Eight Miners—Both Sides Agree That Situation is Grave—British Coal Strike Causing Great Distress—Big Corporations Curtail or Suspend Operations.

Cleveland, O., March 21.—All the demands by the 200,000 miners in the bituminous coal fields of western Pennsylvania who insist on a 10 per cent. increase in pay of 50 per cent. and shorter working hours were voted down by the operators today.

**Referred to a Sub-Committee.**  
As a final effort to prevent a probable shutdown of the mines after April 1 and possibly a strike, the whole dispute was then referred to a sub-committee. This sub-committee, composed of six miners and eight operators, will convene tomorrow morning to consider the possibility of a compromise.

It was pointed out by Mr. White that the wages of more than 500,000 miners are at stake.
